

CJH BakeLab is a creativity laboratory for kids, and cosmetic laboratory for adults. Our creativity lab covers multiple disciplines of science, using “sweet or bakery themed” crafty art and food projects. Our cosmetic laboratory focuses on the research, formulation, and product development of cosmetic and personal care products, through the guidance of an experienced cosmetic chemist.

CJH BAKELAB

CJH BakeLab introduces kids to the science fields, using "sweet or bakery themed" crafty art and food projects. We offer our services in-house at our creativity lab on 2323 S. Voss Road of Houston. In the past, we've also partnered with the city of Houston's "Summer To Dream" initiative- offering services across community centers and libraries around our town.

In addition, we apply principles of chemistry to formulate emulsions, and personal care products in our on-site cosmetics laboratory with the fun guidance of a chemist.

For service requests or additional information, please email us at courtney@cjhbakelab.com.
